

# F 16 Oil

## FINISHING

**FIT-WRIST** technology provides additional support at work. The wide, spacious cuff allows you to slip the sleeve inside the glove for even more protection from injury.

## INSERT

### ANTISLASH

Combination of professional anti-cutting protection with high wearing comfort.

## COATING

**F-NITREAL** is an innovative technology based on pure, no-fill, slightly foamed nitrile which provides high grip and breathability of the glove.

## CHARACTERISTIC

Gloves provide high abrasion resistance and excellent ventilation thanks to a special breathable structure of coating. Free of toxic ingredients, the insert guarantees complete comfort and safety of use.

**SIZE:** 7- 10

**ENVIRONMENT:** dry, wet, oily
