

P 19

FINISHING

The knitted, elastic cuff made with FIT-WRIST technology is pleasant to the touch and perfectly adapts to the shape of the wrist, ensuring full comfort of work.

INSERT

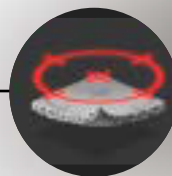

The **SAFEEL** insert fits the hand perfectly, ensuring high wearing comfort, and has a safe, BPA-free composition.

COATING

PU-REFORMANCE

The spongy, light, polyurethane structure of the coating ensures high grip and precision of grip.

CHARAKTERISTICS

The gloves provide antistatic protection, made of soft white Bytлон fiber and carbon fiber. The gripping part of the glove is covered with polyurethane. Finished with a welt, well-fitting to the hand.

SIZE: 6-11
