

F O9 PLUS

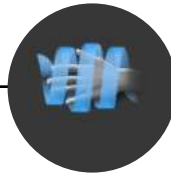

FINISHING

The knitted, elastic cuff made with **FIT-WRIST** technology is pleasant to the touch and perfectly adapts to the shape of the wrist, ensuring complete comfort during work.

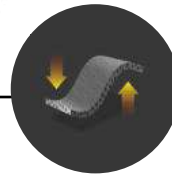

INSERT

The **SAFEEL** insert fits perfectly to the hand, ensuring high wearing comfort, and also has a safe, BPA-free composition.

COATING

F-NITREAL is an innovative technology based on pure, filler-free, lightly foamed nitrile, which ensures high grip and breathability of the glove.

CHARACTERISTIC

These gloves offer high abrasion resistance and excellent ventilation. The microporous nitrile coating ensures 360° breathability. The 15-gauge liner guarantees high flexibility, a good fit, and precise work. The toxic-free liner ensures comfort and safety.

SIZE: 6-11

ENVIRONMENT: dry / wet / oily

BRANCHES:

- ✓ Metal industry
- ✓ Automotive industry
- ✓ Logistics and warehousing
- ✓ Assembly works, construction and infrastructure works
- ✓ General work

STANDARDS: EN ISO 21420:2020, EN 388:2016+A1:2018 (4131A), EN 407:2020 (X1XXXX)

The gloves retain their protective properties even after repeated washing. Confirmed by tests in accordance with EN 388 and EN 407 standards, performed after three washing cycles at 60°C.

The Touchscreen Glove allows you to work with touchscreens.

Silicone-free, confirmed by laboratory testing (FTIR test).
